

Purina® Equine Senior® Horse Feed

WITH

OUTLAST

GASTRIC SUPPORT
SUPPLEMENT

COMPLETE FEED WITH HAY BUILT IN FOR THE UNIQUE NEEDS OF SENIOR HORSES

#1 VETERINARIAN RECOMMENDED SENIOR HORSE FEED

Four out of five equine veterinarians recommend Purina's Equine Senior® Horse Feed to their clients with senior horses.*

SUPPORTS DIGESTION & HEALTH

Easy to chew with highly digestible fiber to meet the needs of horses that cannot chew or digest long-stemmed forage.

COMPREHENSIVE SUPPORT

Contains Amplify® High-Fat Nugget and Outlast® Supplement to support body condition and gastric health.

EASY TO CHEW

Easy-soak™ Pellet Technology for horses with worn or missing teeth, makes a soft, easy-to-chew mash when soaked in water.

ActivAge®
PREBIOTIC TECHNOLOGY

Patented formula includes ActivAge®
Prebiotic Technology to address
common signs of aging

Immune Function

Supports the optimal function of the aging horse's immune system.

Mobility

Supports optimal mobility in aged horses.

Metabolic Response

This controlled sugar and starch formula, along with ActivAge® Prebiotic Technology, supports an appropriate metabolic response to feeding.

THE RESEARCH BEHIND PURINA® EQUINE SENIOR® HORSE FEED

When our equine partners and trusted companions reach their golden years, their nutritional needs change. Maintaining good health requires consistent and complete nutrition, especially when their dental condition deteriorates and they can no longer effectively chew hay or pasture. Equine Senior® horse feed is carefully balanced with built-in hay to provide fiber that is easy to chew and digest to help meet the aging horse's nutritional needs and support good health for years to come.

FEED GREATNESS®
